

## Prayer to Ogun

I am truly grateful for the hard work and dynamic creativity that have gone into building my life.

So I begin, with Esu-Ogun, to open my paths and roads and connect me at higher levels with the Ogun matrix.

I know, that as I connect with this powerful energy, that I will be dynamically creative in my everyday life, enhancing every thought and action.

As I align my thoughts to the powerful field known as Ogun, I will find the strength and determination to do the hard work that must be done to build a better way of life.

I will be able to persevere through any challenge no matter how difficult or unpleasant.

I will find the focus that I need to keep out any distractions as I forge forward.

I will be able to push thorough any obstacle that stands in my path.

I will be able to create things out of the materials in front of me for all to enjoy.

I will be able to find creative and unique solutions to the problems that present themselves so that I may push forward.

As I connect at even deeper levels with the Ogun matrix I will be sensitive, faithful, loyal and truthful.

I will be able to fight like a warrior and yet love with the biggest of hearts.

I will be able to carve a path out of darkness to find the light.

I am truly grateful for the ability and opportunity to connect with this energy of hard work and dynamic creativity.
