

Prayer to Sango

I am truly grateful for the strategies that have gone into building my life.

So I begin with Esu-Sango to open my paths, and roads, and connect me at higher levels with the Sango energy matrix.

I know, that as I connect with this powerful energy, spirit of the sun, that I will be able to use strategy in my everyday life.

As I align my thoughts with the powerful matrix known as Sango; I will be able to see life with a longer-term view.

I will see the implications of my actions as they move into the future.

I will realize that it is my good character, coupled with my strategies, that moves my life forward.

I will use strategy in a way that brings good things to me, and all those with whom I choose to share my circle.

I will be able to see the truth in any situation that comes across my path.

I will be able to avoid the pitfalls that would take me away from the true path of my destiny.

I will learn to embrace the journey rather than looking for short-cuts which might impede my growth.

The Sango matrix will help me to let go of short-term thinking that might do me harm.

As I connect at even deeper levels with Sango; I will be able to understand how to use this energy to create changes in an effective way.

I will avoid the dangers of playing with fire.

I will use the smoke that it provides to purify my life.

I will focus on maintaining the eternal flame rather than putting out wild-fires.

I am truly grateful for the ability and opportunity to connect with this energy of fiery strategy, spirit of the sun.
